# How is your life different now than you thought it would be at this point?

Barbara Berney - Never dreamed I'd be married and divorced twice; never imagined I'd find love at this old age. Didn't imagine that three of my six brothers have passed too early.

Jerome Joffe - I thought I would be a billionaire by now.

Terrell Dobbs Kemp (Terry) - My husband and I were both able to retire in 2016

Joset Wright Lacy - I am not retired yet and I'm glad!

R. Mark Lawrance - Everything has been much as I could have possibly anticipated. Losing two sons has put us in a realm I never would have expected.

Pete Bill - Didn't think I'd become involved in documenting and educating communities about local Indiana history

Beth efroymsen - I had a guidance counselor who thought I should be a secretary- showed her!

Keith C Starling - My life is much better than I ever dreamed, it turned out just the way I had hoped

John G. Mueller (Johnny George) - Never dreamed of being this much older. Still feel 28 as I look out my eyes upon the world.

Jane Oblinger Scott - My life was forever changed with my first born being born missing most of all 4 limbs. He has been very successful but raising him opened my eyes and heart to those with disabilities.

# How is your life different now than you thought it would be at this point?

Sarah Nicely Fortener - Surprised to find myself back in the Indy area, as I left Indiana many decades ago

Milton O. Thompson - Have achieved more than I thought possible to help others

Suzanne Brummer Harper - didn't think I would accomplish all that I have

Karl Zimmer - I didn't become an architect.

Karen (Frosch) Brown - I had so many plans that just bottomed out.

Patty O'Brien - I made it to my dream: Living in the country and surrounded by nature and many farm animals! We are "on the smaller scale" Homesteaders on 8 acres!

Steve Weigle - I have retired comfortably, in an area with a milder climate. I never thought I could have succeeded like this. I always thought I would be working until they buried me.

Sandy Peacock - I didn't have any expectations...so this is nice!

Lynn (Budnick) Rios - In every way imaginable. I was raised to expect to get married, have children, and be supported by my husband... well the marriage thing never worked for me, never had kids, and have never been supported by anyone other than myself, yet I carved out my piece of paradise, a beautiful home in the tropics, a lucrative career I enjoy, almost debt free, and a pretty wonderful (and much younger) man in my life. It's all good!

# How is your life different now than you thought it would be at this point?

Patricia (Patti) Valentine - Who thought that far ahead ?!?

Mel Arnold - I thought I would be independently wealthy and own an Indy 500 race team

Joset B. Wright - I a still working and loving it.

Peter Sewell - Never thought I would be motivated to try to develop an artist side in semi-retirement

David Slosson (Dave) - Medical issues changed how retirement should be, no grandkids

Louis B. Cantor - I could have never imagined I would have had the opportunities and experiences I have had coming from a rather humble background. My father was an orphan from the UK and only had an 8th grade education, my mother attended one year of college. We were not wealthy, but had what we needed and a large extended family on my mother's side. My parents always stressed the importance of education, for which I am eternally grateful.

Erma Power - I'm a widow living without Carl..

Barbara James (Lawall) - My life has exceeded all my expectations.

Linda Wray (Sackett) - I never thought that I would move to another state on my own. Even though I only moved to Illinois, it was a very scary move for me.

# How is your life different now than you thought it would be at this point?

Barry Izsak - I retired earlier than I had anticipated and definitely proud of the fact that I had enough saved to retire at 63

Don Palmer - I did not think I would be semi-retired at age 54. I had no idea i would have a second career as an adjunct business instructor at the college level and

Patti Stone - I thought I would have a few kids and perhaps a grandchild or more but I do have 2 amazing nephews who I spend a lot of time with.

Dan Smith - I never really gave my future any thought when I was young. Life has sort of happened to me and I feel like I've just gone along for the ride. I have no complaints and feel so very blessed.

# How is your life different now than you thought it would be at this point?

Tim Welty - I thought I might be overseas working in a mission setting rather than pursuing a career in academia

Barbara Berney - Where to even start. Twice married and divorced. Too young to be this physically broken!

Lisa Smart McCammon - It's way better!

Cynthia - That would take a whole chapter to express.

Lynne Glickstein - I never thought I'd be old.

Mike Eid - still working, by choice

Brad Lennon - "Never dreamed I would have been an educator for nearly 40 years."

Debra Tompkins Webb - Life is very different than I imagined 50 years ago...I then thought I would probably have some sort of retail or secretarial career. However, because I was able to keep my horse on Tyner's farm (next door to NC), while in High School, I developed a love for all the farm animals, which somehow, morphed into my desire to have a few acres in the country. I married a man originally from Kentucky and 30 years ago, we settled here, in Central Kentucky. We developed a Property Title Research business, while on our small farm/s, we have raised sheep, goats, a llama, alpaca, donkeys, emus, chickens, ducks and geese. I was introduced to the fiber arts of spinning and weaving (processing and using my own animals' fibers) and now find ways to "enable" others to enjoy similar pursuits. We found a great church, are surrounded by good people and actually, life is better than I ever dreamed possible.

# How is your life different now than you thought it would be at this point?

Robin Millican Martz - I am grateful for the life I've had, even with the twists and turns. That's what makes it life!

Ellen Swisher Crabb - My life is full of a large variety of activities and I'm still working hard. I don't think I expected to be this busy at this time. My life keeps getting busier with more projects and people.
